Under these conditions, Taiyo Yuden confirms and certifies the followings.

◆Registration of Substances:

After careful review of the legislation and specifically the definition of an “article” as defined in EC Regulation 1907/2006, Title II, Chapter 1, Article 7.1(a)(b), it is our current view that Taiyo Yuden products would be considered as “article.” In light of the definition in Article 7.1(b) which requires registration of an article only if it contains a regulated substance that “is intended to be released under normal or reasonably foreseeable conditions of use,” we understand that Taiyo Yuden products do not fall under a registration obligation for their intended and anticipated use.
